Tim Farman
Cupolex Building Systems Limited
P O Box 24484
Royal Oak
AUCKLAND

Dear Tim,

GJ Gardner Northland has chosen to use Cupolex floor systems for a number of our floors and have been very impressed with the results.

As tiled areas are part of our standard floor coverings we require minimal or no cracking. Cupolex floor systems have provided better results than other systems

The floors are a specific engineered design to suit each site

The cost savings are in transportation, minimal wastage and labour due to speed of installation.

Cupolex has performed exceedingly well in all these areas and we are happy to recommend them to others.

Yours Sincerely,

Phil Causley
Contracts Manager
